

**REMARKS/ARGUMENTS**

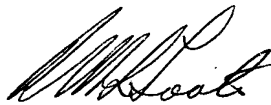

This correspondence is in response to an Advisory Action mailed 30 March 2005. In the advisory action, the Examiner had indicated an antecedence issue concerning the term "the printhead module" in the circumstance where the claims define "at least one printhead module". The Examiner suggested the term "the at least one printhead module" be used at all times when defining aspects of the printhead module. In accordance with the Examiner's suggestions, claims 1, 7, 8, 10, 11 and 12 have been amended to use this terminology. Applicant considers that the claims are now clear.

A terminal disclaimer in respect of US 6,655,786 is filed herewith.

Applicant considers that this response addresses all of the issues raised by the Examiner and places the application in condition for allowance. Further consideration of the application is therefore respectfully requested.

Very respectfully,

Applicants:
